

DUCON CONSTRUCTION CHEMICALS INDUSTRIES LTD PRODUCTS

FLOORING SOLUTION

Product Name	Product Picture	Finish Picture	Description	Pack Size kg
Ducrete Mf (Pu Flooring)			Ducrete Mf (Pu Flooring) Provide Durable, Seamless, And Chemical Resistant Surfaces Ideal For Industrial And Commercial Spaces, Ensuring Longevity And Easy Maintenance.	20 Kg/Set
Dupoxy SL (Epoxy Flooring)			Dupoxy SL (Epoxy Flooring) Create Strong, Seamless, And Chemical-resistant Surfaces, Ideal For Industrial And Commercial Spaces, Offering Durability And Easy Cleaning.	20 Kg/Set
Duprime 200 (Epoxy Primer)			Epoxy Primer Ensures Better Adhesion, Surface Protection, Enhances Durability, Prevents Comosion, And Creates A Smooth Base For Epoxy Coating Application.	10 Kg/Set
Dutop 100 (Floor Hardener)			Dutop 100 (Floor Hardener) Enhance Surface Durability, Abrasion Resistance, And Longevity In Concrete Floors, Making Them Ideal For Industrial And High-traffic Areas.	30 Kg Bag
Dupoxy SL 3D (3D Epoxy Flooring)			3d Epoxy Flooring Creates Visually Striking, Realistic Images On Floors With A Durable, Glossy Finish, Ideal For Unique Residential And	1.5 Kg/Set
Dupoxy SL Flake (Flake Epoxy Flooring)			Flake Epoxy Flooring Combines Decorative Vinyl Flakes With Durable Epoxy, Providing A Slip-resistant, Textured Finish Ideal For Garages, Showrooms, And Commercial Spaces	1.5 Kg/Set
Dupoxy SL Metallic (Metallic Epoxy Flooring)			Metallic Epoxy Flooring Offers A Stunning, Glossy Finish With Swirling Patterns, Creating A Unique, Durable, And Easy-to-clean Surface For Modern Spaces.	1.5 Kg/Set
Ducrete MF ESD/ Dupoxy SL ESD (Conductive ESD Flooring)			Conductive flooring safely dissipates static electricity, protecting sensitive equipment in labs, hospitals, and manufacturing, while offering durable and slip-resistant surfaces.	20 Kg/Set

DUCON CONSTRUCTION CHEMICALS INDUSTRIES LTD PRODUCTS

Constructions Chemicals

Product Name	Product Picture	Finish Picture	Description	Pack Size kg
Ducon Tile Joint Filler (Cementitious)			Tile joint filler seals gaps between tiles, preventing moisture and dirt buildup, enhancing durability, and providing a smooth, clean finish to surfaces.	25 Kg Bag
Ducon Tile Joint Filler (Epoxy Base)			Epoxy-based tile joint filler provides strong, stain-resistant, and waterproof sealing for tile joints, ideal for high-moisture areas like kitchens and bathrooms.	1 Kg/Set
Ducon Tile Bond			Tile adhesive securely bonds tiles to surfaces, ensuring durability, water resistance, and flexibility. It's ideal for floor, wall, and outdoor applications.	20 Kg/Bag
Ducon Fairface Plaster			Fair face plaster provides a smooth, aesthetic finish for concrete surfaces, requiring no additional finishing. It's durable, water-resistant, and visually appealing.	20 Kg/Bag
Ducon Skim Coat			Skim coat is a smooth, thin layer applied over surfaces to correct imperfections, providing a flawless finish before painting or tiling.	20 Kg/Bag
D- Cem SL (Cementitious Self Levelling Compound)			Cementitious self-leveling compounds create smooth, even floors by automatically leveling surfaces, ideal for preparing substrates before applying floor finishes.	25 Kg/Bag
Ducon Micro Concrete			Micro concrete is a fine, high-strength material used for repairing and resurfacing concrete surfaces, providing a smooth, durable finish.	25 Kg/ Bag
Ducon Repair Mortar			Repair mortar is a strong, fast-setting compound used to fix cracks, holes, and damaged concrete surfaces, ensuring durability and stability	25 Kg/Bag

DUCON CONSTRUCTION CHEMICALS INDUSTRIES LTD PRODUCTS

Water Proofing & Heat Proofing

Product Name	Product Picture	Finish Picture	Description	Pack Size kg
D-Seal A100 (Acrylic Waterproofing Coating)			Acrylic waterproofing provides a flexible, durable coating that prevents water penetration, ideal for roofs, walls, and foundations in wet environments.	20 Kg/ Bucket
D-Seal C200 (Cementitious Waterproofing Coating)			Cementitious waterproofing creates a seamless, durable barrier that prevents water infiltration, commonly used for basements, foundations, and wet areas.	21 Kg/Set
Du-Bond SBR Latex			SBR latex is a versatile bonding agent that enhances the strength, flexibility, and waterproofing properties of cement-based materials.	20 Kg/Pack
Ducon Izonil Quatro (Heat Insulation)			Quatro heatproofing solution offers superior heat resistance, effectively protecting surfaces from extreme temperatures, making it ideal for industrial and commercial applications.	25 Kg/ Bag
D-Shield 1.5 (Bituminous Waterproofing Membrane)			Bituminous membrane solution provides reliable waterproofing, protecting surfaces from moisture, ideal for roofs, foundations, and underground structures in harsh environments	1Mtr x 20 Mtr 215 Sft
D-Shield 3 (Bituminous Waterproofing Membrane)			Torch-applied bituminous membrane solution ensures waterproofing with heat-activated bonding, providing durable, reliable protection for roofs and foundations.	1Mtr x 10 Mtr 107 Sft
D-Shield 4 (Bituminous Waterproofing Membrane)			Torch-applied bituminous membrane solution provides strong, durable waterproofing by melting the membrane onto surfaces, ideal for roofs and foundation	1Mtr x 10 Mtr 107 Sft
D-Seal Ultra Cool Coat A200			Cool coat solution reflects sunlight, reducing heat absorption, improving energy efficiency, and providing durable protection for roofs and exterior surfaces.	20 Kg/ Bucket

DUCON CONSTRUCTION CHEMICALS INDUSTRIES LTD PRODUCTS

Constructions Chemicals

Product Name	Product Picture	Finish Picture	Description	Pack Size kg
Concrete Admixture (Ligno Based)			Concrete admixture lingo base enhances workability, durability, and strength of concrete, improving mix performance and ensuring superior structural integrity.	5 Kg, 10 kg, 20 kg, 200 kg
Concrete Admixture (PCE Based)			PCE base concrete admixture improves workability, strength, and durability of concrete, offering enhanced flow and performance for complex construction projects.	200 Kg/ Gallon
Duconmix PCE Pink (crystalline integral waterproofing admixture)			PCE pink admixture enhances the properties of concrete, improving workability, strength, durability, and curing time for superior construction performance and quality.	20 Kg/ Bucket
Ducon Water Repellent			Water repellent creates a protective barrier on surfaces, preventing water absorption, and enhancing durability and resistance to moisture damage.	1 Gallon / Bucket
Ducon Release Agent (Cementitious Mold Release Agent)			Release agent prevents adhesion between surfaces, ensuring easy removal of stamp molds or casts, and protecting materials from damage during processing.	10 Kg/ Set
D-Seal A400 (Acrylic Sealer)			Acrylic sealer provides a clear, protective coating that enhances durability, resists stains, and offers a glossy finish for concrete and masonry surfaces	20 Ltr / Bucket
Ducon Grout NS (Cementitious Grout)			Ducon Grout NS is a high strength cementitious grout with non-shrink properties specially formulated for all general-purpose grouting.	25 kg Bag
Swimmingpool Water Treatment Chemical			Swimming pool water treatment chemicals maintain water clarity, prevent algae growth, and balance pH levels, ensuring clean, safe swimming conditions.	Chlorine 90% 50 kg Chlorine 70% 48 kg
